Bill Huntemann sends this photo to share:

“Would be an interesting scenery item for a railroad. Comments on Facebook suggest this is an AC Mack truck carrying a European design, possibly 600 mm, locomotive. The design of the buildings suggest an Argentina or Paraguay location.”

Please send any idea, project, photo, something you found surfing on the Internet, etc., no matter how great or small they may be to your newsletter editor. We all love trains so...if it's about trains, and you've got it on your computer, chances are you won't be the only person who might enjoy viewing it.
